POLYCHANNEL.co.uk

Deck A Drain

+ Black Monolithic Grate

Deck A Drain. Manufactured from tough, long lasting, noncorrosive PVC, this unique 'mini-profile' drainage system eliminates the need for deep excavations and digging of trenches with installation being kept as simple as possible.

Designed for patio areas, driveways, decks and most other light domestic applications by being only 38 mm wide. Available in 800mm or 1000mm (1 Metre) Lengths.

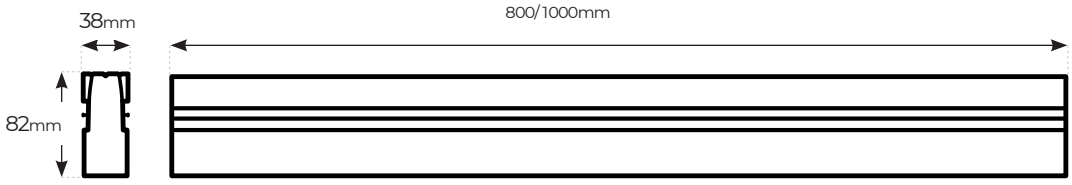
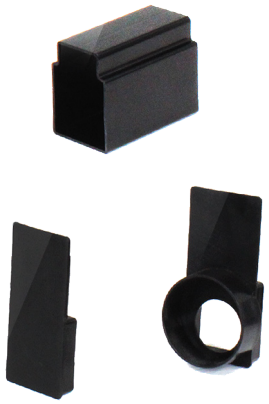
Width (Internal) :	38mm
Depth (Overall) :	82mm
Weight :	2.8kg
Grating :	Monolithic Intergrated Slots (2mm)
Accessories :	Connector, End Cap, End Cap Outlet (40mm)



Accessories

Connectors are needed if you are placing multiple channels in a run. They are required between every piece of channel to create a secure water tight seal.

End Cap Outlets are used at either end of the run, or both, to allow water to be drained to exterior drainage pipes. Outlet for this channel is 40mm Radius.


End Caps are needed at either end of the run, or both, to stop the water from leaving the channel
